 Fishing Tackle - Hunting Supplies - Fishing & Hunting Boots, Clothes - Big Display of Surplus Items - Come in and Browse Around - We've got Thousands of Items.

If your outboard motor will not idle properly it may be the low speed carburetor needle is improperly set, the spark plugs may be defective or you might have the improper fuel mixture.

When boating at night, extra lights, entirely independent of your boat's electrical system, are handy to have.

Big Parade To Preview 3-Day Affair

By LEWARD HOOD
 Staff Writer

Parades, bathing beauty contests, skin diving capers, sleek cabin cruisers and shiny silver dollars — these are the things boat shows are made of.

And that's what is in store for residents of Amarillo and the Panhandle Boat and Ski Club launches its Fifth Annual Boat Show at Tri-State Fairgrounds.

THE THREE-DAY boating festival, to begin Friday, is expected to draw thousands of nautically-minded persons as well as curious onlookers to the Commercial Arts Building beginning Friday.

The event will be previewed Thursday at 3 p. when a parade featuring some 75 boats of all types will move down Polk from a point of origin near 1st Street. Participating will be the Amarillo Air Force Base Band and several "Boat Show Beauties" who are competing in a bathing contest.

This year's show will see the unveiling of the biggest boat ever to be shown in the Panhandle, said Ewell Parker, director of publicity for the Boat and Ski Club.

The craft, Parker said, is a 25-foot cabin cruiser which is designed for "luxurious living afloat."

A HOST OF NEW 1961 model boats, motors and trailers will be

Schedule

August 20	Boat Races	Buffalo Lake
August 27	Water Ski Tourney	Buffalo Lake
September 10	Water Ski Tourney	McClellan Lake

Record Holder Sees No Limit

Have outboard boat and motor combinations reached the ultimate in speed? Will the latest record of 122.979 mph hold?

"Heavens no!" says Hu Entrop, present record holder from Seattle, Wash.

"I might never know how fast I can go with this rig. My speed is not limited by the boat and motor but by my own intestinal fortitude in pushing it further," Entrop insists.

How does it feel to drive a boat at speeds of 120 plus and what are the thoughts of the outboard speed record holder?

"At those speeds you concentrate on the tachometer and water pressure indicator, and you watch the water ahead of you. The slightest swell can slow you down."

REVERSE CLEARS WEEDS...

After running your motor through a weed bed, engineers suggest you clear your propeller completely of weeds before resuming full speed by reversing the motor and accelerating briskly.

on display between 1 and 10 p.m. daily. Some of them are being brought here from as far as the Gulf Coast.

"Opening night" activities, slated for 4-10 p.m. Friday, will be highlighted with the giving away of 1,010 silver dollars. All visitors, young or old, will be eligible for the door prizes, Parker said. The dollars will be given away precisely at 8:30 p.m., he added.

Activities Saturday will commence at 1 p.m. with the bathing beauty contest scheduled for 8:30 p.m. Some 35 young women who are sponsored by Amarillo merchants will compete in the contest.

Climax of the show will come at 8:30 p.m. Sunday at which time a 14-foot fiberglass craft, complete with 40 horsepower motor and trailer, will be given away by retail merchants here.

AT THE SAME time an entire "skiing rig" will go to some lucky registrant.

Keep Tow Line Neat In Skiing

When water skiing, make certain the tow line is free of knots. It is estimated that a simple knot in a tow line decreases its strength up to 45 per cent. Back splice or whip the ends of the line to keep the ends from fraying.

One other bit of advice is offered by Tom Dorwin, water ski advisor for Evinrude Motors. If you construct your own tow lines, make certain that the yoke off the tow handle is no more than 11 inches deep. In other words, the two ends of the rope attached to the tow handle should meet in a single line not more than 11 inches from the handle. This eliminates the possibility of accidental entanglement in the tow line.

One of the first things a seasoned skipper does before he puts his boat into the water every year is to make sure his lines—all of them—are safe and strong.

est will continue to spiral. That's why this show is going to be bigger and better than ever before."

Admission to the show will be 50 cents per person.

Boat Rentals, Minnows, All Kinds of Bait and Fishing Supplies

Each day at 30 to 40-minute intervals members of the Skin Scuba Diving Club will present an exhibition of skin diving techniques. Using a metal tank with a glass window, divers will conduct demonstrations with latest equipment.

The divers will eat under water, speak under water and, if possible, sleep under water. They will explain the functions and importance of masks, oxygen tanks, fins, snorkel tubes and other gear.

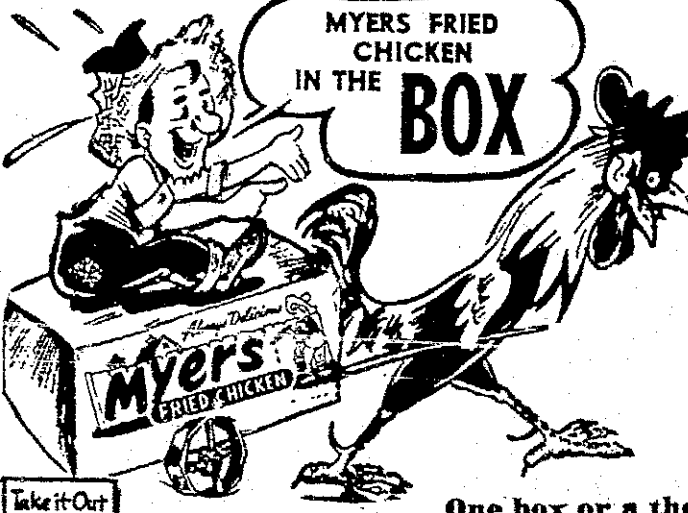

In addition, active participation of newcomers will be invited. "We're going to invite persons in the audience to join in and have fun," Parker declared. "Everyone is invited to come out and dive."

Responsible water safety experts will be on hand to guard against any mishaps, unlikely as they may be, he said.

PARKER SAID SHOW sponsors expect a "record crowd."

"After all, interest in boating has increased tremendously in the last few years, especially in the Texas Panhandle. No doubt inter-

YOUR EVINRUDE OUTBOARD MOTOR DEALER

DESIGNED FOR THE SPACE AGE!

POWERED FOR PURE PLEASURE!

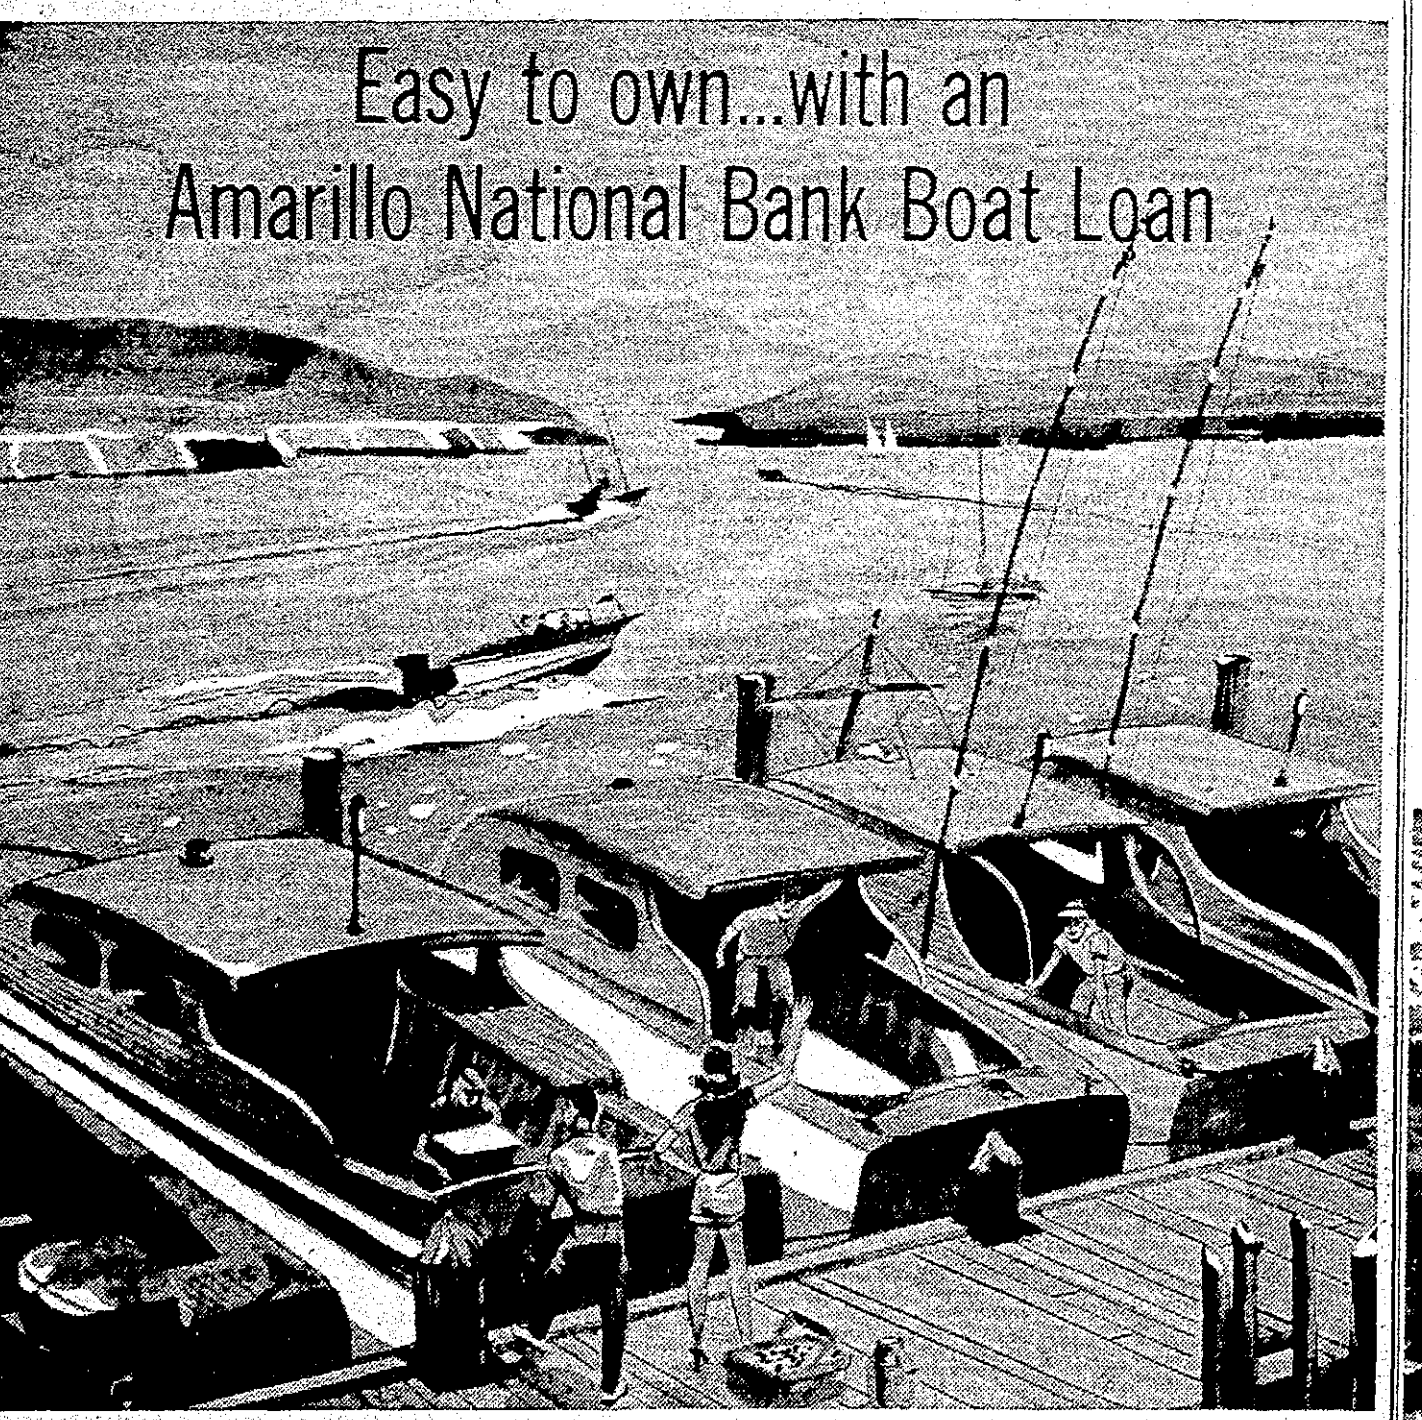

EVINRUDE, 1961 ... again the hit of the show ... a new concept in outboard design! The functional beauty of Jetstream design turned compound curves into non-vibrating, sound-stopping forms. Powerheads are floated on rubber mounts and covers lined with sound-blotting insulation ... making Evinrude's famed quiet even quieter!

See the two '61 models of the fabulous 75 hp V-4 Starflite* ... a new, improved version of 1960's sizzling pace-setter ... and a new luxury model with high-output AC generator which charges your battery while your motor idles ... both models with new thermal-controlled fixed-jet carburetion for thrifty, foolproof fuel efficiency.

All down the line ... in every model, size and price range ... we've set the pace in performance, features and value! See 1961's newest, most advanced motors on display at your Evinrude dealer's exhibit.

*The motor which "Doc" Jones and Hu Entrop used to set a new world's outboard speed record of 122.979 mph on Sept. 16, running on regular gasoline at a leisurely 4900 rpm.
